CALIFORNIA ELECTION.

THE WORKINGMEN SWEEP SAN FRANCISCO.

A Close Run on Many of the Officers--An Official Count may Result in Some Changes.

SAN FRANCISCO, Sept. 8.—The complete count in the city gives the following result. The workingmen elect the mayor, sherlff, auditor, treasurer, tax-collector, public administrator, surveyor, district attorney, city and county attorneys, police judge, one supervisor, five members of the Board of Education and railroad commissioners for city district. The Republicans elect assessor, recorder, coroner, county clerk, superintendent of schools, superintendent of streets, eleven supervisors, seven members of the Board of Education, and one member of the State Board of Equalization and re-elect Congressman Davis. The superior judges elected are mostly on the tickets of all parties. Some of the officers are elected by majorities so small that the official count may result in some change.

FIRE AT MARYSVILLE.

A fire at Marysville last night destroyed the store-house of E C Ross on High street and the store of N H Poysert and two dwellings adjoining. Loss $80,000.

The Maine Election.

PORTLAND, Sept. 8.—Portland, except Islands, which will not materially change the result, gives Davis a majority of over six hundred. Cape Elizabeth and Deering, Democratic towns, are reported to have gone Republican. The vote in Portland excluding Islands is as follows; Davis, Republican, 3,411; Garcelon, Democrat, 1,466; Smith, Greenback, 1,295; scattering, 31. The Republican majority over all is 615. This is nearly the final result and is a Republican gain of nearly seven hundred over last year, when they lacked forty-eight of a majority.

LEWISTON, September 8.—This city gives Davis 1,411; Garcelon, 851; Smith, 13. Three Republican representatives were elected. Auburn gives Davis 1,214; Smith, 567; Garcelon, 389. Two Republican representatives are elected. Probably the Republican county and Senatorial ticket is elected, Damariscotta shows a gain of 50 for Davis.

ELLSWORTH, Maine, Sept. 8.—Davis 545, Smith 424, Garcelon 93, scattering 17. Eugene Hale (Rep.) is elected representative from Ellsworth.

AUGUSTA, Sept. 8.—Nothwithstanding the rain crowds are in the streets and on the sidewalks and carriages are rushing to and fro, every man will be got to the polls. It is the hardest fight ever experienced in this city. The Republicans are now ahead in every ward but one and are confident of electing both representatives.

BANGOR, Me., Sept. 8.—Bangor gives Davis 375 majority, a gain of 485 over last year. Three Republican representatives are elected. Total vote, 3,491; Davis, 1,933; Smith, 1,066; Garcelon, 469—scattering, 23. Last year the total vote was 3,278. Connor, 1,584; Smith, 1,486; Garcelon, 192—scattering, 6. The Republicans are jubilant over the result. Brewer gives a Republican majority of 204, a gain of 150 over last year. All towns thus far reported in this vicinity show large Republican gains.

CORNISH, Sept. 8.—Davis, 159; Smith, 107; Garcelon, 45.

ROCKPORT, September 8.—Smith, 567; Davis, 274, and Garcelon, 59. Greenback gain of 69. Republican gain of 44 for representative. Richmond gives Davis 20 majority; Dresden gives Davis 33 majority; Bowdoinhaur, Davis 208 majority; Bowdoin, Davis 70 majority.

DEXTER, September 8.—This was the most exciting State election ever known in this town. Result: Davis, 345; Smith, 276; Garcelon, 35.

PORTLAND, September 8.—Twelve cities and towns, including Portland, Bangor, Lewiston and Auburn, gives Davis 6,307 majority over Smith and Garcelon.

A Dutch Suspension.

LONDON, Sept. 8.—Dirk Mule, a prominent banker of Winschoten, Holland, and a public man enjoying unlimited confidence, has suspended payment, stating that he had lost 500,000 guilders by the collapse of two potato flour mills. Great popular excitement prevails. There is some rioting, and the police are obliged to protect the premises of the defaulter.

Afghanistan Troubles.

LONDON, Sept. 8.—The *Times* in a leading editorial this morning on the subject of the revolt in Afghanistan says: "Our duty is to act with courage and firmness, what has happened by no means creates a new situation. It does not supply a single new argument for annexing Afghanistan and our policy, however modified in details will be to keep steadily to the lines which have already been traced with the approval of public opinion."

The British mission to Afghanistan consisted of Major Cavagnari, his secretary, Mr. Jenkyns, Dr. Kelley, Lieutenant Hamilton, commanding the escort consisting of twenty-six cavalry, 50 infantry and the Sepoy guides. The troops of the embassy were lodged in two houses in the city joined by a quadrangle. The houses were spacious, but unfortunately, constructed of wood. A dispatch to the *Times* from Calcutta says that from the imperfect information obtainable there seems to be good reason to favor the view that the disaffection has not spread all over Afghanistan, but the affair is merely local *emeute* which will speedily disappear when the British troops arrive at Cabul.

The government apparently does not doubt the fidelity of Ameer. Bad-Shah Kahns' adhesion to the British cause is valuable as removing what might have been a serious obstacle to the advance from Kuram to Cabul. The fact that the insurgents did not wait until winter snows had blocked the passes, or even until the British had evacuated Candahar, seems to indicate that the rising was wholly unpremeditated. Koorum's column, which will be the first to move on Cabul, is in excellent condition, not having suffered from cholera. It consists of the second battalion of the eighth regiment, sixty-seventh regiment, seventy-second and ninety-second highlanders, two mountain and two field batteries, one battery of horse artillery, three regiments of native infantry and three cavalry, and one regiment of pioneers. Movement by Khyber pass is intended to support the main advance by way of Peiwar pass.

An extra edition of the daily *News* contains a dispatch from Allahabad, announcing that the nine troopers belonging to the escort who escaped were absent from the city collecting forage at the time of the outbreak. The mutineers finally burned down the door way of the Embassy and swarmed in.

SIMLA, Sept. 8—It is reported that three of the mutinous regiments have marched from Cabul. In official circles Ayhub Khan and other chiefs are suspected of complicity in the outbreak.

LONDON, Sept. 8,—The Viceroy of India telegraphs as follows: "Advices from Ali Kheye dated Saturday last says Bad Shab Khan saw the corpses of Major Cavagnari and the members of his staff and escort. The party made a very stubborn defense. The loss of the rioters killed in the fight is estimated at over one hundred."

Appealing For the Abrogation of the Sixth Clause.

NEW YORK, Sept. 7.—Memphis specials state that a long petition, couched in strong language and signed by all the prominent citizens, including principal or representatives of every leading commercial house in the city, has been forwarded to Dr. Plunket, President of the Board of Health at Nashville, urging that rule six of quarantine regulations be rescinded, so that farmers in the immediate vicinity of Memphis may bring their cotton to the city to be prepared for market, so as to realize its value. It is urged that if farmers are deprived of this privi.ege they will lose their cotton, which is now opening in the fields, and the hands cannot be induced to pick it when the chances are that they will be forced to wait two months for their pay.

The opinion, expressed with much confidence by Dr. Thornton, President of the City Board of Health, is that the plague has passed its maximum and is steadily on the decline.

There were eight new cases, seven white and one colored, reported this morning. Nine interments reported since last night, among the number Maggie Sullivan, Annie M. Campbete Archie Mills, Mrs. Emma Arnold and James Houck, Jr. The latter died at Buntyn station.

A Jersey Hail Storm.

DENVILLE, Sept. 8.—A terrible shower of hail and rain accompanied by wind, thunder and lightning, swept over this vicinity last night shortly before midnight. Hail for ten minutes, many of the stones being larger than black walnuts. Great damage was done to orchards. Buckwheat is flattened to the ground and immense fields of corn completely riddled. A large number of trees and several out buildings blown down. At Camp Tabor tents were loosened and blown in every direction. The storm came from the southeast and passed up into the mountains.

The Jasper Monument.

SAVANNAH, Ga., Sept. 8.—Arrangements for laying the corner stone of the monument to Sergeant Wm. Jasper of the Revolutionary army, who fell at the siege of Savannah on the 9th of October, 1779, on the centennial of that event, are completed. Governors of this and other States will be present and an oration delivered by Senator John B. Gordon. Invitations have been extended to the military throughout the Union and to citizens generally. The railroads have made special low rates and indications are that there will be an immense gathering.

Yellow Fever in Morgan City.

WASHINGTON, D. C., Sept. 8.—The National Board of Health to-day received information from Morgan City, La., that there has been one death there from yellow fever.

Getting Ready for the Fray.

ALBANY, September 7.—Mr. William Purcell, chairman of the Democratic State committee, has announced a meeting of that body for Tuesday night at 8 o'clock, at the Vanderbilt House, Syracuse,

Steamer Snagged.

NORFOLK, Sept 8.—The steamer Vesta running on the upper Roanke river was snagged and sunk Thursday morning near Norfleet's landing. The Baker wrecking company have sent an expedition to raise her.

Turkey's Troubles.

CONSTANTINOPLE, September 8.—Turkish troops have been sent to repress the insurrection which has broken out in Kurdistan.

LATE NEWS NOTES.

Baron Isidore Taylor, of France, the well-known traveler and author, is dead.

The engagement of Miss Bayard, the eldest daughter of Senator Bayard, to an attache of the Russian legation is announced.

The police of New York made 1,430 arrests last week. There were 131 marriages, 482 births and 530 deaths.

An extra of the *Canada Gazette* issued Saturday, contains an order in Council extending the time for the exclusion of American cattle to the 6th of October.

Theodore Daniels, a negro in Boone county, Ky., who made an assault upon his employer's adopted daughter, was taken from his guards Thursday night, tied to a tree and shot.

An old lady was struck by lightning while kneeling in prayer at her home in Stafford, Canada, on Friday night last, and although painfully burned, was not seriously injured.

General Waterfield was shot and killed while sitting on the porch of a hotel at Edgehill, Pa., Thursday, by Titus Hillman, who was practicing with a rifle half a mile distant.

Mr. W. M. Barber, chief engraver of the United States mint at Philadelphia, died on Sunday last, at the age of 72 years. He engraved the Grant, Johnson, Professor Henry, and other medals.

A Toronto magistrate has ruled that shaving is a work of necessity, and consequently lawful on the Sabbath day, and some of the barbers of the city, who object to keeping open shop on that day have determined to appeal against his decision.

The official journal states that King Alfonzo, having at Areachon solicited the hand of the Archduchess, Marie Christine, the Emperor has consented, and the archduchess joyfully accepted.

Wilbur F. Raymond, the absconding agent of Ramsey & Co., of Seneca Falls N. Y., who was arrested in London recently on the charge of forgery, but released from custody in consequence of a telegram from his employers, who declined to prosecute the case, died at his hotel of dropsy of the heart.

The Conkling Boom Starting.

New York Herald.

Mr. Conkling's victory at Saratoga on Wednesday, and not only his success, but the manner in which he secured it, undoubtedly placed him at the head of the New York Republicans, and if he carries the State this fall his claim to the Presidential nomination next year will be irresistible.

THE GIST OF THE MAILS.

REPORTS FROM THE TREASURY DEPARTMENT.

More as to Demerara Sugar—Balance of Trade in our Favor—Better Times—Increase of Wheat.

Special to the Baltimore Sun.

WASHINGTON, Sept. 7.—It is denied at the Treasury Department that Mr. McKay was authorized in an official way by the Ways and Means Committee to make a report on the question whether or not the Demarara sugars are artificially colored for the purpose of evading the tax imposed. The treasury people say that during the last regular session of Congress Mr. McKay, in a casual way, happened to mention to the chairman of the Ways and Means Committee that he was going to visit the country where those sugars were made, and he wonld, if desired, look into the charge that they were artificially colored, and give the committee his observations. The chairman presented the matter to the committee, and they replied that they would be glad to hear what Mr. McKay had to say on the subject after his return. The treasury people believe this is all there is in Mr. McKay's connection with the matter. They maintain that, although, as Mr. McKay says, the Demerara sugars are not artificially colored, advantage has been taken of the law by processes of manufacture which results in virtual fraud on the revenue.

EXPORTS AND IMPORTS.

The Treasury Department has finally received the full reports of the exports and imports of the country for the fiscal year ended June 30, 1879. A compilation of the same shows that the balance of trade in our favor for the year was $264,661,666, as against a balance in our favor last year of $257,814,234. The total value of exports was $710,439,441, and of imports $445,777,775. The total exports of coin and bullion for the year were $24,907,441, and the total imports $20,296,000. Of the articles of merchandise imported sugar takes the lead, although the amount was $2,000,000 less than last year. Coffee comes second, with a falling off from last year of $2,000,000 worth. The imports of tea fell off two per cent. There was an increase in the imports of the luxuries, such as silk, diamonds, laces, wines, etc., said to be a sure indication of better times. The largest increase in exportation was of wheat, which increased from 96,000,000 bushels in 1878 to 130,000,000 in 1879. The export of wheat flour increased ten per cent., horned cattle sixty per cent., iron thirty per cent:, and tobacco ten per cent. The exports of tobacco remained about the same, while cotton and oil fell off.

Laboring Men and Strikes.

Correspondence of the News.

RALEIGH, September 8.—Heretofore each trade organized separately, met in secret, passed its laws, inaugurated its strikes, and got whipped. A new departure has been taken. Trades are now combining, not as an amalgamation of trades, but in the same organization, the same ritual, same constitution and same purpose now holds together men of various trades. The Maine stone cutter can rap at the door of a shoemaker's organization in Philadelphia, or of a Printer's Union in Chicago, or of a Cigar Maker's Union in Sacramento, or of Coach Maker's Union in N. C., and find entrance and welcome. Here is vitality force. This is the initial step. Labor has been wasting its energies. It has been blind, impulsive. The new brotherhood opens the eyes of labor, arouses its itelligence, warms its heart, strengthens its aims and guides it aright.

All at once 5,000 men cease work. What does it mean. No one knows. Perfect unity prevailed. Capital wondered and asked, what's the cause.

Labor has always been defeated in piecemeal. In late years, workingmen who strike have been looked upon as fools, sure of defeat, and why? Lack of organization.

The new organization has a foothold in nearly every State in the Union. Its methods are silent. It knocks at the door of the workshop with an angel's touch, and the willing ears of the workers and toilers hear the summons and attend. Nothing revolutionary is thought of. The quiet coming together of the toilers, for counsel and unity, is all that is seen on the surface. Not one who enters the door, ever turns his back on it. The teachings are noble and holy.

The concentration of wealth and the growth of power, dangerous to our institutions and liberty, urge the spread of such organization.

If a million men in a hundred different trades in every State and Territory in the Union, acting under a central counsel for one aim, ever lift their giant arm to strike at any form of injustice or oppression, the newspapers will have something to write about.

No organization has ever reached such vast numbers as this great one we speak of; none have ever had so many branches, or cover such extent of territory; none have ever bound men so close together.

It aims at higher and broader results than mere strikes for wages.

It aims to control and make the conditions which make higher wages possible. It aims to reach down to bottom causes, and control government in the interests of labor, without meddling in narrow party politics. It is the germ of a new industrial organization, which, when the times are ripe, will transform the narrow systems of the present into broad possibilities for all the people, and then the laboring men's organization will have their lawyers, their doctors, at *pro rata* charges of their labor, and may be, after awhile, they will have their President, Governor, etc. The ball has started in California, and it will slowly but surely roll all over these United States without opposition by any fair man or woman. What a Sofa Pillow Caused.

The New York *Times* tells a sorrowful story of the misfortune that befell the Rev. Mr. Simpkins, who recently died in the Oshkosh almshouse, and traces them all to the fatal gift of a sofa pillow presented to him in Rome by a young lady while he and his wife were there in pursuit of health. He was compelled to buy another trunk on account of the pillow, and at every frontier he crossed that pillow was subjected to duty. It also caused the breakage of articles in the trunk, so that by the time he got on shipboard at Liverpool he calculated that it had cost him $120. On arriving at New York he was informed that a duty of $7 must be paid upon it, and that he would be indicted for perjury, because he had sworn that there was no hing contraband in his baggage. This was more than clerical flesh and blood could bear, and he spoke of that sofa pillow in the manner of the wicked, and told Mrs. Simpkins that it was all her fault, for if she had not been a perfect fool she would have thrown it into the sea. The unhappy man was overheard by a hostile deacon of his church, and he preferred charges of drunkenness, profane swearing, wife beating, infidelity and perjury against him. Mrs. Simpkins, filled with anger, left her husband and went home to her father. Deserted by his wife, dismissed from his pulpit, and threatened with a suit for perjury, the unhappy man lost all heart, sought to drown his miseries in drink, and in two short years from the day when the pillow was presented to him he died in the almshouse, friendless, hopeless and alone. It is therefore proposed to combat this great evil of presenting sofa pillows to ministers, and pass a prohibitory law making it a felony to make or present such deadly articles.

STATE NEWS.

DAVIE.

ELBAVILLE, Sept. 5.—Weather fair, days warm and nights cool.

Trade is improving.

Married, on the evening of the 4th inst, Luke A Peebles to Miss Fannie Robertson, all of Davie.

Judge Kerr failed to reach Lexington and Davidson Court with the railroad injunction case from Davie. So it went by the board.

A protracted meeting at Elbaville begins on Saturday, the 6th inst.

Fodder pulling is in full blast, and the smoke rising from many coal pits. Tobacco cutting will open early next week.

Bright tobacco of the new crop has already been thrown on the Winston market, and the price obtained was very low. W. J. E.

FORSYTHE.

WINSTON, Sept. 5—The weather is still hot and fair.

Trade is very brisk, the streets being crowded with wagons of all departments of business "on the go." The rooms at the depot are crowded to overflowing.

Several hymenal links are to be tied soon in our city we learn.

John Price, who was recently bound over to keep the peace, broke his pledge and whipped his wife again, for which he has been arrested, and in default of two hundred dollars bond was lodged in jail for six months.

John Chaffen, colored, keeper of a notorious gambling house, and vender of liquor, was caught and fined and after a second offense made his escape to Virginia, but the den, one of the worst in town has been broken up.

Quite a number of our citizens will go to Cincinnati on the excursion next Monday.

A colored maid not very deeply marked with the Ethiopian dye, went to the White Sulphur Springs and passed off as a white lady from Michigan, and mingled in freely with the white visitors. She left with celerity when discovered, came to Winston on a hack, but was met by a livery turnout in the suburbs of the city, a prudent movement, for much indignation was felt here among the persons here whose relations were at the White Sulphur.

Fifty-two acres, known as the Atwood land, was sold to-day by public sale to Mr. Nissen for $170.

IREDELL.

COOL SPRING, September 5.—The weather has been fair and dry for several days. Our farmers have commenced cutting tobacco, but the general opinion is, that owing to various causes the tobacco will be of an inferior grade. Trade is dull. Our merchants usually do a good business at this season by buying and selling dried fruit, but there is very little for sale this year. Some people have commenced making molasses. More than enough molasses is made in this section to supply the home demand.

Politics have played out. Not many of our people take political papers; and most of them seem unconcerned who shall be our next Governor, President, etc.

Geo. Green and W. Gales Adams left last week for the Chapel Hill University. I believe they are the only students at the University from this county.

Miss Lizzie Kerr, daughter of Professor Kerr, is visiting relatives near this place. D. J.

ORANGE.

DURHAM, September 6.—Lugs, dark, $1.50a$2.50; red, 3a4. Bright lugs, common, 5a6; medium, 7a10; good, 12a15; fancy, 18a25. Red leaf, common dark, 2a3; good, 3a4; fine, 5a7; extra fine, 8a10. Bright wrappers, common, 12a14; medium, 20a30; fine, 40a60; extra, 70a90.

Breaks for the past month good and prices well sustained on all good, desirable coloring tobaccos. Those having good tobacco on hand would do well to put it upon the market. Demand good for brights.

WAKE.

WAKE FOREST, Sept. 8.—The number of students is still increasing, being one hundred and twenty-five, and still they come. As the old students have not yet returned, the prospects for a bright and profitable session and even for all future is seemingly fair. The labors of Dr. Pritchard have not been without success. He is still traveling for the college and will continue through October. The Wingate building is gradually rearing its head among our stately oaks. "Upward and onward" is the motto. ANON.

A So-called "Bridge."

Correspondence of the News.

RALEIGH, Sept. 8.—I have not time to call on the mayor and our honorable board of aldermen, and therefore request you to call their attention to a so-called bridge at the corner of Hargett and McDowell streets, and would suggest that Bill Carter be started out at once to summon our mayor and honorable board of aldermen to hold a meeting on said so-called bridge and name it, and get a patent right for it, and have elevators erected to hoist persons over said so-called bridge. Also appoint a committee to endeavor by summoning the neighbors to find out the number of oaths that have been spun out by pedestrians over said so-called bridge. Also, said committee to inquire whether some mischievous boys did not put said obstruction there, and if so give them a benefit of a patent right. A STRANGER.

Carrying Concealed Weapons.

Wilmington Star, 7th.

Thomas Frank, a road overseer in Harnett Township, was brought to trial before Justice Hall yesterday, on the charge of carrying concealed weapons, upon affidavit of parties living in the same township. The action arose under the late act of the legislature making it a misdemeanor to carry concealed weapons; the said act, however, permitting certain parties to carry arms, among whom were State officers when in the discherge of their duties. The question brought up was whether an overseer of a road was a county officer. The Court held that under the late decision of the Supreme Court, that persons who were appointed or elected to enforce the State, or who were entrusted with duties looking to the enforcement of the laws, were officers in the intent of the law. Judgement was found for the defendent.

Chief of Police Leary of Chicago died Sunday night in that place.

THE TRADE OF RALEIGH.

SOME NUTS FOR COUNTRY MERCHANTS TO CRACK.

And they All Tell You the Same Old Thing: That they can Sell Goods Cheaper than Elsewhere.

The NEWS to-day presents the fourth of the series of articles on the state of Raleigh trade. Our merchants are hopeful and all look for better times. The attention of merchants living within a radius of one hundred miles of Raleigh is especially called to these statements of our merchants; it is not one man or one firm speaking to you, but the merchants of Raleigh collectively, and they all sound the same note—*cheap goods*. To-morrow's article will be devoted to the machinery trade. Again we invite our country merchant subscribers to visit Raleigh and purchase their fall stock from "home folk;" you will not only benefit your own people and get as good bargains as elsewhere, *but it is to your interest to do it*. Try them.

JOHNSON & WIGGS, WHOLESALE AND RETAIL GROCERS AND COMMISSION MERCHANTS, WILMINGTON STREET.

The members of this popular and thriving firm thought the spring trade this year, as likewise the summer months, showed a general increase over that of last year. They were of the opinion that the fall trade was about opening and that this season's sales would exceed those of several years past; that crops generally are good and especially had they noticed the fine belt of country running through the lower edge of Wake and Franklin counties.

"We can sell goods," said Mr. W., "cheaper to our North Carolina customers than they can get them delivered here from northern markets in small lots. The reason is this: We get through freights, and to give you an illustration—two years ago I had to pay seventy-two cents for freight to Youngsville from Baltimore, and at the same time Raleigh got through freights at fifty cents; the two places are only twenty-one miles apart. There is the whole thing in a nutshell. The difference in freights to a merchant buying in large quantities and shipping here by car loads, and the country merchant buying in small lots and paying full freight rates, enables us to sell to country merchants *cheaper* than they can get the same goods delivered here, and then make a profit."

This is a number one house, and they are first-class business men and thorough gentlemen.

MARCOM & ALFORD, WHOLESALE AND RETAIL GROCERS AND COMMISSION MERCHANTS, CORNER HARGETT AND WILMINGTON STREETS.

Trade with this energetic firm this spring and summer had been as good as usual. They thought the fall trade had hardly opened yet, but expected an unusually good trade this season. They can sell goods to North Carolina customers as cheap as they can have them delivered from Norfolk or Baltimore houses. These are clever gentlemen and will treat you right.

LEN. H. ADAMS, WHOLESALE AND RETAIL GROCER AND COMMISSION MERCHANT, CORNER WILMINGTON AND MARTIN STREETS.

Mr. Adams reported the spring and summer trade this year as having been one hundred per cent. better with him than for some years' past. The fall trade had hardly opened yet, he thought, but anticipated a splendid season of it. Crops generally are good. He can, and says he is determined to, sell goods as cheap to North Carolina customers as any house in Norfolk or Baltimore. He says fertilizers particularly are a great deal cheaper here, and that he has a good supply on hand for the wheat crop. Mr. Adams is a thoroughgoing business man and one of our most successful merchants. He will do the right thing by you.

HELLER BROTHERS, BOOTS AND SHOES, FAYETTEVILLE STREET.

The spring and summer trade with this go-ahead house had been as good as the same seasons usually are; they saw no perceptible signs of the fall trade having yet opened, but expected a first-rate run of customers this season. They can furnish goods as cheap as Norfolk or Baltimore houses can deliver them to North Carolina customers. These gentlemen do a good business and always do the right thing by their customers.

C. D. HEARTT—BOOTS AND SHOES, FAYETTEVILLE STREET.

Business with this popular gentleman was somewhat better than usual during the spring months; the summer trade was rather light. Trade is already reviving, and he looks for a good run of custom this fall. The demand for cheap goods this year has been larger than ever before. Could furnish goods as cheap as Norfolk or Richmond houses.

This is a good house to deal with, and customers are generally pleased with their purchases.

WILLIAM WOOLLCOTT, WHOLESALE AND RETAIL CLOTHIER AND DEALER IN DRY GOODS.

Owing to a misunderstanding the statement of Mr. Woollcott was reported incorrectly. This is what Mr. W. intended to say:

"My spring trade was thirty per cent better this year than last; the fall trad is just opening; expect a good fall trade and my sales this season will double those of last fall. I can sell goods as cheap as any house south of Baltimore, and my stock of clothing, hats, boots and shoes and dry goods is full and complete."

Mr. W. deservedly enjoys a good run of custom and always deals fair with his customers.

Going to Greenwich.

Richard Gatewood graduated number one in the class of cadet engineers at the naval academy last June, and F. T. Bowles, number three. The former is from Virginia and the latter from Massachusetts. They made application to the department that they be allowed to attend the royal naval college at Greenwich in order to study naval engineering, architecture, etc. That college is allowed to take a number of private students, including two from each foreign nation. The request of Gatewood and Bowles went from the navy department, through the department of State, to our minister at England. The request of the young men to be admitted to Greenwich has been granted without their undergoing the usual examination, their certificate of graduation at the naval academy being considered sufficient by the English government. They will enter at th October term.

Jay Gould in Europe.

Jay Gould is unfairly considered by many people abroad a representative American. He is not that, but he managed in the short stay in Europe, which he has just closed, to do a highly characteristic thing in Amsterdam. In passing through the place Gould bethought himself that the bonds of the Denver branch of the Kansas Pacific were held there. It was a transaction involving some millions, but it did not take much time, "for," said Gould to a New York reporter, "I did not have much time to spare. I got there about ten in the morning and had to leave on the 1 o'clock train and *wanted to see the place*." In the intervals of seeing the place Gould asked the Amsterdam bankers whether they wanted to sell, bought the bonds and paid cash. "They expected," says Gould, with an American chuckle, "to smoke over it for a week, and seemed to expect me to do the same, but I put it through in our own way. I don't think they have got it straight in their heads yet."

BROKE JAIL.

How Mrs. Thompson made a Determined Effort, but Failed.

Goldsboro Messenger, 8th.

A notorious negro, named Wm. Bizzell, charged with cattle stealing, succeeded in making his escape from the jail in this town Thursday nigh.. The particulars are as follows:

The huge iron doors leading to the cells are provided with smaller doors, located nearly in the center, about four feet above the floor, and measuring, perhaps, ten by twelve inches. They are used for supplying the prisoners with their food, and at the suggestion of our county superintendent of health, the jailer has suffered them to remain open during the day for ventilation purposes, closing them every evening. It seems that in some mysterious way the negro Bizzell had succeeded in squeezing himself through the small opening, and had taken refuge in an open cell just opposite the passage stair-steps. At about 10 o'clock, Thursday night Mr. Thompson repaired up stairs for the purpose of closing the doors as he had been doing every evening; sometimes earlier than at other times, owing to the warmth of the weather. Mrs. Thompson accompanied her husband, taking her position at the head of the steps outside of the passage door, while Mr. Thompson walked down the passage and began to close the doors. Just then Bizzell sprang from out his place of concealment and made a rush for the door, where he encountered Mrs. Thompson. She bravely seized the monster, and with all the strength in her power endeavored to hold him until Mr. Thompson could come to her rescue, but in the struggle both her and Bizzell came down the narrow, steep stairs, head foremost, and in the fall the negro freed himself of her hold and made haste through the door into the yard where he swiftly glided either through or over the fence and escaped.

During the struggle Mr. Thompson found himself in a dilemma. The rush and escape of Bizzell was all the work of a moment, and yet he could have easily shot him but for the fear that he might shoot Mrs. Thompson. As soon as he could get between her and the negro he fired at him, but is not certain that the ball took effect. The conduct of Mrs. Thompson shows her to be a woman of considerable spunk, and we regret that in the struggle and fall she received painful bruises.

Bizzell is a notorious cattle thief, and has operated in that avocation all the way from Wayne to New Bern, where his wife is said to reside. He is a stout black negro, and how he managed to squeeze his body through the small opening is a mystery not yet unraveled. Two other darkies were in the same cell with him but both plead ignorance of his exit or the manner in which it was made.

Too Much Married.

Hartville, (Ga.) Sun.

Some months ago one John M. McCraney, who hails from Charlotte, N. C., came out to Reed Creek district in this State ostensibly for the purpose of visiting relatives. While there he became enamored of a fair daughter of one of the good citizens of that district. He wooed and won her, and, much against the wishes of the father, married her clandestinely. It was known by everybody in the district that he had a wife living in Charlotte, but he had represented that they had parted and he had obtained a divorce. After he had married wife No. 2 it transpired that he had not been divorced, and wife No. 1. was sent for by the irate father of No. 2; but the festive Johnnie skipped with No. 2 to the sylvan shades of the fair Palmetto State. No. 1 came out to Reed Creek imbued with the determination to visit condign punishment upon her recreant husband, who aspired to be lord of all (the women) he surveyed. She is fair to look upon, medium height, fair skin and seems to have the disposition of an angel—at least that's what the boys say in Reed Creek. She remained in Reed Creek some time, but returned on the 30th ult. to her home in Charlotte, minus her husband. It is now her turn to try for a divorce, when she can have the opportunity of lavishing her love on some worthy object. The grand jury should look after this matter, and if the gay Lothario puts the weight of his carcass on Georgia shore again he should be taught that we don't allow that kind of "doings" and "goings on" in anti-Mormon Georgia.

A Richmond Mix.

Richmond Dispatch, 8th.

"In the police court on Saturday the case of William Goodman, charged with feloniously and maliciously assaulting, striking and wounding Nelson Lewis with a skid, with intent to maim, disfigure, disable and kill, and did kill, said Goodman, on the 27th day of August, was taken up. Goodman, it will be remembered, is the man with whom Lewis had a fight at E. A. Saunder's store, on Cary and Fourteenth streets. Without going into an examination, the accused was sent on to the Hustings court, and committed to jail until the court meets."

Which is the dead man and who is in jail?

Making a Sword Out of a Meteorolite.

Springfield Republican.

General Ord, of Texas, recently sent to the armory a piece of meteorolite picked up in Mexico some time ago, with the request that it be made into a sword for himself. The piece is composed of iron mainly, but is so soft and brittle that the water-shop folks find it very difficult to harden the metal sufficiently for the blade, though they will probably be able to finish it in good shape. The sword will not be ready for some time.

Sweet Odors.

Almost every flower that possesses a desirable odor is used in the Unique Perfumes made by Dr. Price. It is from these rich blossoms that Dr. Price's Perfumes obtain their peculiar sweetness and floral character. His Floral Riches, Pet Rose, Lily of the Valley and Evening Violet are the fashionable odors.

The increasing demand daily, in this country and all parts of the world, Europe, Asia, Africa and South America, will compel W. T. Blackwell & Co. to extend their vast establishment to double the extent, both as to buildings and machinery. The Bull is going ahead.

CUBAN INDEPENDENCE.

THE LONE STAR FLAG OF CUBA IN NEW YORK.

Revolutionists Actively Organising in New York to Help the Cause at Home---More Money Wanted.

New York Star, 6th.

The "Lone Star" flag of Cuba floated from a tall staff in front of Liberty Hall, or, as it is now called, the "Cuban Temple of Liberty, in West 16th street, on Thursday evening. In the main hall of the building were gathered between 300 and 400 colored Cubans, in response to a call issued by Messrs. P. Peralto, J. Najarro and J. Cownado. There were also present General Bonachea and and Rafael Lanza, editor of *La Revolucion*. The meeting was called to order by Coronado, who delivered an address in Spanish. The object of the meeting was, he said, for the organization of the colored Cubans into a body to help attain the freedom of Cuba and the immediate abolition of slavery. It was resolved as a token of gratitude to the late President Lincoln for the emancipation of the slaves of the United States, to call the organization the "Lincoln Club." A majority of those present signed the roll of membership. Mr. Lanza, in conversation with a *Star* reporter, said that this club was the first organization of the kind, and that it would be in close communication with every Cuban society, secret or otherwise, in the United States. "After it is thoroughly organized," said Mr. Lanza, "they will issue a circular calling upon the colored people of America to unite and form an organization which will be known as the 'Friends of Cuba.'"

"What will be their object?" asked the reporter.

"To create a fund for the purchase of materials to be used in the liberation of Cuba," he replied.

"Will you ship arms and ammunition to Cuba?"

"We will give them all the assistance we can; but we will do so under protection of the laws of commerce, which allow us to purchase arms and send them to other places not in a state of revolution, whence they can be reshipped to Cuba."

"Do you meet here as pronounced enemies of Spain?"

"We meet as an organization of men for a political purpose. That purpose is the freedom of Cuba. We mean to help her; but we will avail ourselves of the laws of all countries without breaking any of them. Whatever we attempt to do will be done in compliance with the laws of the United States."

"Are there many Cuban organizations in the United States?"

"There is a regular secret society composed of several associations, all of which were formed with the one object—that of freeing Cuba, and it is in constant communication with a similar organization in Cuba."

"Are you confident of success?"

"Decidedly; the latest advices from Cuba have given us new courage. It is stated, on Spanish authority, that thirteen well-organized bodies of Cuban guerrillas have already begun their depredations. With proper arms and ammunition they will prove a formidable army."

Another Cuban revolutionist said: "With an army of from 3,000 to 4,000 acclimated men, Cuba could defeat the strongest force that Spain could send against her. We will raise the men and the money to support them, and send out a body of disciplined men this winter to fight for the freedom of Cuba."

"Will the men leave the United States in a body?"

"No; they will depart in detachments and concentrate at some available point, from whence they will communicate with revolutionists with whom they will co-operate."

Meetings will be held at Liberty Hall every Thursday evening. During the remainder of the week classes will be formed for instruction in the English and Spanish languages, the rudiments of mathematics, geography and other studies.

An Old Hunter.

Lenoir Topic.

We had a call Monday from Mr. Enoch Coffey, one of Caldwell's most interesting characters. Mr. Coffee is now in his seventy-second year, and is hale and hearty. His reminiscences of "ye olden time" are truly interesting. He was born and reared about five miles from John's River Store, and in his younger days, when game was abundant, he was a famous hunter and trapper. When he first grew up, bear, deer, and other wild game was plentiful in the section in which he lived, and most of his time was spent in hunting and trapping. His true aim has caused many a bear to bite the dust, and he has killed as many as nine one fall. May he live long and enjoy prosperity.

Titles Below Par.

Lenoir Topic.

We want the next legislature to pass a law defining who shall and who shall not be entitled to the prefix of "Hon.," and make it a misdemeanor for any one to use the title in addressing one not entitled to it. Also make it a penal offense for any one to address a person as "Cap'n," or "Major," or "Colonel," or "General," or "Doctor," or "Judge," or "'Squire" who is not entitled to the "handle."

The Work of a Charleston Tailor.

The Anderson *Intelligencer* vouches for the authenticity of this bit of news: "The suit of clothes worn by General George Washington when he surrendered to the American Congress his commission as commander-in-chief of the American armies, at the close of the revolutionary war, and which can now be seen in the patent office at Washington, was made in Charleston, S. C., by a Mr. John McFall, an English tailor, and the grandfather of our townsman, Dr. J. T. McFall."

Another Proof of their Value.

Monroe Enquirer.

Mr. Leroy Helms has a nice flock of Cotswold lambs, now about five months old, from which he clipped, a few days ago, an average of three pounds of wool from each. We were shown a sample of the fleece that measured eight and a half inches. The yield of wool is above the average of the common sheep when grown, and these lambs, when grown, will no doubt yield from twelve to fifteen pounds each.

"May it please your Honor, to show the respectability of the witness, it is in evidence that he was once a member of the legislature." "The Court has its doubts as to whether that strengthens his character very materially." "But, your Honor, he smokes Blackwell's Fragrant Durham Bull Smoking Tobacco." "Hold, enough, that settles it, the Court is entirely satisfied.

DAILY NEWS

GEO. C. JORDAN, Editor and Prop'r.

TUESDAY, SEPTEMBER - 9, 1879.

MR. JAY GOULD, of the New York *Tribune*, has sent a telegraphic order to Memphis Howard Association for $5,000, with instructions to keep at work and he will foot the bill. Mr. Gould has not been generally classed as a charitable man, yet the money donated will do an immense amount of good, even if it is a bid for the Southern Pacific Railroad.

SPEAKER RANDALL has directed that the manuscript of the new rules of the House be taken to Chicago, that it may be placed in the hands of a western printer. This is not done because the Speaker likes to distribute government patronage, but because as he says, if the printing should be attempted in Washington, the correspondents would be sure to get the rules in advance.

THE Cuban fever is breaking out in New York once more—another scheme for a lot of so-called patriots to live at the expense of some one else. With the Cuban "relief fund" and the Fenian "skirmishing fund" appealed for there is every chance for the poor deluded, sympathetic dupes to throw away any quantity of money to help these "dead beats" to live without work.

THE Louisville *Courier-Journal* says: Here is the kind of notification "poor black men" receive in Cincinnati:

AUGUST 29 1879.—Mr. Page: You are commanded to leave town in thirty days, and in that time if you are not gone you will be shot down when you least expect it. By order of

THE TRIBUNE OF DEATH.

Page is an industrious colored barber, but it seems industry is no commendation for a man in the estimation of the assassins who live in Deacon Richard Smith's town.

FOR the benefit of the New Orleans *Democrat* we will state that Major Andre was hanged at Tappaan, in what is now known as Rockland county, New York, and not Westchester; the Hudson river divides the two counties. Ten years ago the writer of this paragraph furnished a sketch of the execution of the sentence of the court-martial that condemned Major Andre, with copies of original documents relative to the case, which were published in the New York *Sunday Courier*, and which are now received as valid historical facts.

FEW printers realize that there is no such word as *exhorbitant*. But it is a solemn fact, nevertheless.—*Macon Telegraph*.

That's it, give it to the "intelligent compositor," he's the only one at fault These printers generally "follow copy," and when they see "ex*h*orbitant" and "ex*h*onerate" so spelled by the writer you may safely gamble they will follow the orthography. By the way, why don't the editors and the proof readers come in for their full share of the blame?

THE *Southern Planter and Farmer*, for August, is an unusually good number. Every article it contains is of vital importance to the farmer. "Interesting experiences in the cultivation of wheat, best varieties, fertilizers, etc." by a number of the best farmers in the country, is worth double the subscription. Also, Dr. Ellizey's article on green fallow crops, animal manures and commercial fertilizers is a strong paper, and ought to be read by every farmer. Send $2.00 to Dr. L. R. Dickinson, Richmond, Va.

GREAT stress has been laid by the New York *Tribune* on the fact that the educational funds created in several of the Southern States prior to the rebellion were swallowed up during the war, and that they have never been replaced. We desire to call Mr. Reid's attention to the fact that under Republican rule in Maine, of trust funds held by the State to the amount of $1,955,630.85 the sum of $801,919.02 is missing. A large portion of this missing money had been set apart for educational purposes. This is a small item in the record of the Maine Republicans, who yesterday made an appeal to the people to give them other opportunities for plunder.

THE Savannah (Ga.) *News*, in its annual review of the rice crop, published on the 1st instant, states that for the past two years the prices obtained for this grain have been so remunerative as to make the cultivation of it one of the most profitable investments in that portion of the country, and the demand for rice lands has steadily increased from year to year, until now the river lands are nearly all taken up. The upland crop—so diminutive ten years ago—is also rapidly increasing. The *News* says the crop now coming to market (the first of which was received on the twenty-fifth of August) is regarded as one of fine promise, and judging of the prospects of the now fast ripening grain, will exceed that of past years.

IT is stated that Alexander Troup, the advocate of everybody's business—his own included—has spoken sixty-nine times within three weeks while stumping Maine for the Greenback ticket. This man has no money invested anywhere; he has figured in all the "isms" that have come to the surface during the past ten years, and has benefited no one but himself. He was one of the three leaders that organized the strike of the book printers in New York in 1869, which resulted in driving the book work from New York city and then selling out the typographical union. For ten years he has played the part of a demagogue and has not done an honest day's work in all that time. And he is only the type of a class who is altogether too common in the country.

THE financial, agricultural and manufacturing troubles of England do not, according to the latest intelligence, seem to be decreasing. A further reduction of the wages in the factories was in contemplation, and should this go into effect the spinners have declared themselves in favor of systematic emigration. The Helvetia, now on her passage from Liverpool to New York, brings eighty farmers, who intend to settle in Texas. No immediate amelioration of the financial condition is anticipated; on the contrary, there is reason to anticipate even greater troubles when heavy bills drawn by this country against produce exports shall become due. The natural resource at such times has always been emigration; nor will the United States have any reason to complain if the crisis should bring over to them a class of producers of a desirable kind.

THE New Orleans *Democrat* publishes the following:

Middling futures are worth twelve and one-half cents in New York. A powerful "bull clique" has forced the price of September "futures" to twelve and one-half cents, and has forced itself to keep up that price throughout September. At the same time October "futures" are worth only eleven cents, and "Decembers" only ten and one-half cents. Ship and sell your cotton in September at twelve and one-half cents, thus receiving one cent and a half more than if you sell it in October, and two cents more than if you sell it in December. A difference of seven to ten dollars more per bale will justify you in keeping your ginning up with your picking, and in paying a higher freight on your cotton.

RETURNS from the election in California continue to come in slowly, but enough is ascertained to assure the election of Perkins and a substantial victory for the Republicans. Kalloch is elected mayor of San Francisco beyond a doubt, and the workingmen have probably secured the sheriff, auditor, collector and county and district attorneys and several minor offices. The count has not progressed far enough to determine which of the candidates for justices of the State courts have been chosen, but the indications are favorable to the Workingmen's candidates. The legislature is still in doubt, and the Republicans have probably won three and perhaps all four of the Congressmen, though one district is in doubt, Perkin's majority will be over 20,000, and the Supreme Court judges are divided between the Republicans and Workingmen.

IT is astonishing to learn the amount of money that is used in the tobacco trade of this place.—*Durham Tobacco Plant*.

But our Raleigh people are slow to learn this fact. Our business men may sit still and mourn over lost opportunities, but this does not help the matter in the least. What they want now is action and recoup their former mistake. And here is another item that is worth consideration, taken from the same paper:

Recently a number of persons have visited Durham on a prospecting tour with a view of moving here, but have failed to make arrangements because suitable dwellings could not be secured. Our capitalists should not permit any man to be driven from Durham on this account. We have never known a house to be erected in Durham that could be rented that was not engaged long before its completion and most of them are rented or leased before the first brick is struck. Is this not a fine opening for the safe and profitable investmen t of capital?

TILDEN AND HIS DEFAMERS.

We copy the following paragraph from an editorial article in the St. Louis *Republican*, headed "Mr. Tilden and His Defamers:" "It is not certain that Mr. Tilden will be the nominee for President of the Democratic party in 1880. Nothing is certain in politics, and the choice of a convention is harder to foretell than a jury's verdict. But, whatever may be his fate, no public personage has ever borne himself through a trying ordeal with more true dignity and noble composure. The course pursued toward Mr. Tilden by his political enemies and a portion of the Republican press has been simply infamous. He has not only been pursued by misrepresention and falsehood as to his public career, but by the most petty and contemptible assaults on his personal character and private life. If there is a man in the great State of New York who has passed his life in the very eye of the public, it is Samuel J. Tilden, throughout a long and successful professional and political career. Under the fierce light that beats on public station and 'blackens every blot' nearly every event of his life has transpired. He was elected Governor over the most popular candidate his opponents could put forward, and displayed in office an ability and intrepidity of character that made his administration the most destructive to abuses and the most beneficial to the people in the history of the State of New York. All the facts are forgotten and ignored and because a majority of his countrymen desire him for the highest station, to which he was elected and only prevented from holding office by conspiracy and fraud, he is made the target for vile partisans and traducers. When a man runs for office he may expect to be abused, but in this case we have a systematic misrepresentation extending over years, and aimed to destry a possible candidate because of his availability. Such a thing is a national disgrace, and illustrates the animus of a party whose only bond of cohesion is lust for office, and which would willingly surrender the fame and honor of their country to secure a trainsient success."

NO WAY OF STOPPING MORMONS.

One of the schemes that Secretary Evarts devised to prop up the administration was his manifesto against Mormon immigration. Mr. Evarts is too well versed in the law not to know that it was like the Pope's bull against the comet, but the effect on the ill-informed people who hold to the purity of the home was likely to prove enormous. The document has received its full share of ridicule at home, and now expressions from abroad commence to pour in. We take the following from the London Examiner:

It is not in the power of the free United States, with any regard for the law, the Constitution and the rights of man, to prevent Mormons entering the country merely because they are suspected of polygamous views. In England there are several thousand Mormons, and in Scandanavia quite as many. They hold their meetings publicly, and try to make proselytes. Yet, though their views may be abhorrent to every one of common sense and decency—yet, so long as they do not transgress the law of the land, there is not injustice enough in England to punish them simply because some of their faith may have ten wives in another part of the world. Surely the people of the United States will not be less fair? For one hundred years the great Republic has afforded a refuge to the visionaries of Europe. Into its bosom have been welcomed the professors of every faith and of no faith at all. Imperialist Princes and democratic Nihilists equally go through Garden Island unnoticed. The honest German, with no ambition save the acquisition of a lager-beer brewery and a corner grocery, and the Irishman, plotting murder and mischief to the land he has left, is equally sheltered under the stars and stripes. It is, therefore, not a little painful to every well-wisher of the United States, whatever may be his political or religious views, to read that the letter we have commented on "is believed to be preliminary to Government action forbidding vessels from landing Mormons in its ports, in pursuance of its obligation to prevent the immigration of lawless people." Why do they not prevent the landing of German Socialists, Russian Nihilists and Irish Fenians?

Blaine Growing Desperate.

Boston Post.

Mr. Blaine's appeal to Jacksonian Democrats to rally to his relief is a striking reminder of a pathetic passage in the Mulligan interview. The Democrats of Maine, who, for twenty years have been the objects of his personal vituperation, must be even more merciful than was Mr. Mulligan, to listen to his entre ties. What has any man to gain by such a forfeiture of self-respect.

Conkling for President.

New York Herald.

Mr. Conkling's victory at Saratoga on Wednesday, and not only his success but the manner in which he secured it, undoubtedly place him at the head of the New York Republicans, and if he carries the State this fall his claim to the Presidential nomination next year will be irresistible.

Miscellaneous.

VEGETINE

Purifies the Blood, Renovates and Invigorates the Whole System,

ITS MEDICINAL QUALITIES ARE

Alterative, Tonic, Solvent and Diuretic.

Vegetine is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of Scrofula, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases Canker, Faintness at the Stomach, and all diseases that arise from impure blood. Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout, and Spinal Complaints, can only be effectually cured through the blood.

For Ulcers and Eruptive Disease the Skin. Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead, and Ringworm, VEGETINE has never failed to effect a permanent cure.

For Pains in the Back, Kidney Complaints Dropsy, Female Weakness, Leucorrhœa, arising from internal ulceration, and uterine diseases and General Debility, Vegetine acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organ, allays inflammation, cures ulcer a tion, and regulates the bowels.

For Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness, and General Prostration of the Nervous System, no medicine has ever given such perfect satisfaction as the Vegetine. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by Vegetine have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, Vegetine is the best remedy yet discovered for the above diseases, and is the only reliable BLOOD PURIFIER yet placed before the public.

The Best Evidence.

The following letter from Rev. E. S. Best, Pastor of M. E. Church, Natick, Mass., will be read with interest by many physicians; also those suffering from the same disease as afflicted the son of the Rev. E. S. Best. No person can doubt this testimony, as there is no doubt about the curative powers of Vegetine.

NATICK, MASS., Jan. 1, 1874.

MR. H. R. STEVENS:

Dear Sir, We have good reason for regarding your Vegetine a medicine of the greatest value. We feel assured that it has been the means of saving our son's life. He is now seventeen years of age. For the last two years he has suffered from necrosis of his leg, caused by scrofulous affection, and was so far reduced that nearly all who saw him thought his recovery impossible. A council of able physicians could give us but the faintest hope of his ever rallying; two of the number declaring that he was beyond the reach of human remedies, that even amputation could not save him, as he had not vigor enough to endure the operation. Just then we commenced giving him Vegetine, and from that time to the present he has been continuously improving. He has lately resumed his studies, thrown away his crutches and cane, and walks about cheerfully and strong.

Though there is still some discharge from the opening where the limb was lanced, we have the fullest confidence that in a little time he will be perfectly cured.

He has taken about three dozen bottles of Vegetine, but lately uses but little, as he declares that he is too well to be taking medicine.

Respectfully yours,
E. S. BEST,
MRS. L. C. F. BEST.

THE CENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side, sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine DR. McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

Rich Specimens.

Concord People's Paper.

Mr. William Richards, agent for R. D. Gullen, of New York, who owns the Bangle gold mine, in this county, has shown us some of the richest specimens of gold we ever saw, and pronounced to be richer than any some of our citizens ever saw in the mineral cabinet at Washington. Mr. Richards found the stone almost by accident. He happened to strike a rock with a pick and broke it in three pieces. He picked up the fragments of gold which fell from the rock when broken, fluxed them, and they made twenty-eight pennyweights of very beautiful gold. The larger piece of stone weighed one hundred and three pennyweights, and Mr. Richards said that more than half the weight was in the gold. The other two pieces were very rich. It is said to be the richest rock found in the county, except the celebrated twenty-eight pound piece found at the Reed gold mine, years ago. The quality of the gold was such as usually assays ninety-eight cents to the pennyweight at Charlotte. Several other very rich specimens have been found lately. Immigrants should make a note of this.

Thurman in Ohio.

Baltimore Gazette,

Senator Thurman is to deliver his opening speech in the Ohio campaign, at Columbus, next Saturday evening. He has been accused of lukewarmness toward Ewing. There is still a month of cool weather ahead of the Senator, and when he once gets his coat off, he will doubtless be able to dispel the illusion that he is suffering from chilling indifference.

Tribulation for Sherman.

Philadelphia Times.

The Sherman movement doesn't seem to be booming anywhere. The Maine Republicans are agreed that the Secretary's speeches in that State did them more harm than good; his stumping tour in Ohio was a fiasco, and ex-Senator Fenton's effort to nominate a Sherman man for Governor of New York petered out in the most discouraging manner.

Patronizing Mr. Sherman.

St. Louis Globe-Democrat (Grant organ).

Sherman can afford to snap his fingers at his critics. If he really were a candidate for the Presidency his extraordinary though lawful kindness to the National banks would hurt him with the people, but since he is out of the race he need not mind what his enemies say about him.

A New Distinction for John.

Louisville Courier-Journal.

That was a magnificent feat of the Treasury department the other day—the seizure of an illicit distillery only three squares from the Treasury building. What a nose Mr. Sherman must have, to be sure!

His Ruling Passion.

Chicago Times.

And Hayes is going to take in the Springfield, Illinois, fair. There isn't any place whatever to which Mr. Hayes will not follow the alluring pumpkin, and to see the prize mule in his native lair he would cross a continent.

Probably Not.

Philadelphia Times.

Under the circumstances probably there are no light-houses in the interior of New York which it will be necessary for Secretary Sherman to inspect personally.

Cuticura

REMEDIES

Have speedily and permanently cured Humors of the Skin and Scalp of Children and Infants afflicted since birth.

The treatment prescribed in such cases is mild doses of the CUTICURA RESOLVENT, a perfectly safe yet powerful blood purifier, and the external use of CUTICURA, the great skin cure. The CUTICURA SOAP should be the only soap applied to the diseased skin for cleansing purposes.

Humor on a Child

Since Birth Cured, after faithful Medical Treatment had failed.

MESSRS. WEEKS & POTTER: Gentlemen, My little son, two years of age, has had a humor on one side of his face since he was born, which during the last four months has spread over the entire side of the face, the child ear, and side of the head. It must have itched and irritated him a great deal, as he scratched the surface all the time, no matter what was applied. I used many remedies by advice of friends and my physician without benefit until I found CUTICURA, which immediately allayed the itching and inflammation, and entirely cured him. Respectfully, JOHN L. SURRY.
With Walworth Manufacturing Co.
BOSTON, April 15, 1878.

NOTE. Once cured, the skin may be rendered soft and fair by using the Cuticura Soap exclusively for toilet or nursery purposes.

CHILDREN AND INFANTS.

More Cures of Skin and Scalp Affections by the Cuticura Remedies.

Fred. Rohrer, Esq., Cashier Stock Growers' National Bank, Pueblo, Colorado, writes: "I am so well pleased with its effects on my baby, that I cannot afford to be without it in my house. It is a wonderful cure, and is bound to become very popular as soon as its virtues are known to the masses."

J. S. Weeks, Esq., Town Treasurer, St. Albans, Vt., says in a letter dated May 28: "It works to a charm on my baby's face and head. Cured the head entirely, and has nearly cleaned the face of sores. I have recommend it to several, and Dr. Plant has ordered it for them."

M. M. Chick, Esq., 41 Franklin St., Boston, says: "My little daughter, eighteen months old, has what the doctors call Eczema. We have tried 'most everything, and at last have used CUTICURA, and she is almost a new child, and we feel very happy."

Prickly Heat.

Incidental to the Texan Climate.

MESSRS. WEEKS & POTTER: Gentlemen.—Enclosed please find one dollar for a large box of CUTICURA. The small one that I received some time ago has been very efficacious, especially in Prickly Heat or Rash, as some people call it. I am noising it about. Yours truly, THOMAS W. BUCKLEY.
MASON, Texas, Sept. 22, 1878.

CUTICURA is a most valuable external application. It heals all cuts, bruises, and abrasions of the skin, restores the hair when destroyed by scalp diseases, removes dandruff and keeps the scalp clean and the hair soft and pliable. It is as agreeable as it is effective, and is ably assisted, in every case by the CUTICURA SOAP, which is particularly recommended to mothers for cleansing the skin and scalp of infants and children. It is Toilet as well as Medicinal, and is the most fragrant and refreshing Soap for the nursery and bath of any these prepared.

Parents have our assurance that these remedies contain nothing injurious to the youngest infant, evidence of which may be found in the certificates of Dr. Hayes and Prof. Merrick accompanying each remedy.

The CUTICURA REMEDIES are prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and are for sale by all Druggists. Price of Cuticura, small boxes, 50 cents; large boxes $1. Resolvent, $1 per bottle. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.

TUTT'S PILLS

SYMPTOMS OF A TORPID LIVER.

Loss of Appetite, Bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulderblade, fullness after eating, with a disinclination to exertion of body or mind, Irritability of temper, Low spirits, with a feeling of having neglected some duty, Weariness, Dizziness, Fluttering at the Heart, Dots before the eyes, Yellow Skin, Headache generally over the right eye, Restlessness with fitful dreams, highly colored Urine.

IF THESE WARNINGS ARE UNHEEDED, SERIOUS DISEASES WILL SOON BE DEVELOPED.

TUTT'S PILLS are especially adapted to such cases, one dose effects such a change of feeling as to astonish the sufferer.

CONSTIPATION.

Only with regularity of the bowels can perfect health be enjoyed. If the constipation is of recent date, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, one pill should be taken every night, gradually lessening the frequency of the dose until a regular daily movement is obtained, which will soon follow.

Dr. I. Guy Lewis, Fulton, Ark., says: "After a practice of 25 years, I pronounce TUTT'S PILLS the best anti-bilious medicine ever made."

Rev. F. R. Osgood, New York, says: "I have had Dyspepsia, Weak Stomach and Nervousness. I never had any medicine to do me so much good as TUTT'S PILLS. They are as good as represented."

BITTERS

Fever and Ague is most common in the spring, but most severe in the fall and winter. It is strictly a malarious disease, and so surely as the Bitters are adopted, so surely will the individual who adopts this precaution be exempted from its pains and penalties. Add to this its value as a stomachic and anti-bilious agent, and who will venture to gainsay its claims to the first place among family medicines.

LOCAL BRIEFS.

—Revenue receipts yesterday $2,-194.69.

—The funeral of a colored man took place Sunday.

—Tobacco is bringing good prices at the warehouses—in Durham we mean.

—Only $4,000 of old bonds received for exchange at the State Treasury yesterday.

—One hundred and twenty-five students registered at Wake Forest College up to last night

—Suffolk, Va., is to have a tobacco warehouse. Wasn't there something of this kind mentioned here once, or is it all a mistake, anyway?

—The city geese have returned and may be seen again about their old haunts; particularly are they musically numerous in front of the NEWS office.

—A. W. Parker, a brother-in-law of Postmaster Holden of this city, is dead. He was a resident of Orange county.

—Charlotte is taking steps toward raising money to add to the fund for the benefit of the late General Hood's children. Can't Raleigh do something in this direction?

—Colonel R. Y. McAden is a North Carolina delegate to the Worlds' Fair to be held in New York in 1883, by virtue of an appointment by Governor Jarvis yesterday.

—The county court house offices were bare of items yesterday. The jail has received an additional inmate, however, who will remain long enough to sleep off a boozy spell.

Mr. S. Roberson has a letter directed to the care of Wm. Wattson, in the post office here. but as his correspondent failed to locate him he will probably never get it unless he sees this notice.

—Mr. McMackin yesterday informed the NEWS that shares in the proposed tobacco warehouse were being taken almost daily, and that the indications pointed to a successful carrying out of the project.

—Pomp Bryan's pedestrian ring presented a lively appearance again last evening. There was only one walk of any importance. Mr. Alexander Kreth walked against time and made his mile in eleven minutes and fifty **seconds.**

—The meeting conducted at Ebenezer church by Dr. J. B. Bobbitt was attended with fine results. Twenty-two or three conversions are reported. The Doctor has held meetings of considerable interest at nearly all the points on his work and has greatly endeared himself to the people for whom he has so faithfully labored.

—The churches Sunday were well attended. Dr. Skinner delivered his introductory sermon at the First Baptist, and it is spoken of as a very able effort. The address, as delivered by the Rev. N. M. Jurney; at the Second Methodist Sunday evening, which the reporter had the satisfaction of hearing, was a most excellent discourse.

More Recruits.

Deputy sheriff W. F. Griffith, of Mecklenburg, yesterday brought down six conscripts for the penitentiary service. They were all colored save one, and all enlisted in the larceny division.

Justices' Court.

Justice Watts:

A case of "cowhiding" was before this justice yesterday. A young lady had hold of the butt end of the switch, and a gentleman's back was intimately associated with the stinging end. The lady was fined and then the matter ended.

Justice Barbee:

Only civil cases before this justice yesterday, which is something rather unusual. He seemed fully occupied with those, however.

Personals.

W. J. Hicks, Esq., Architect and Wardon of the State penitentiary, is quite ill.

Mrs. George W. Swepson is still feeble.

Mr. Jesse Brown continues to improve.

Major T. B. Venable, of Oxford is in the city.

Major W. J. Baker, of Norfolk, is at the Yarboro.

Police Court.

His Honor Mayor Manly yesterday disposed of the usual number of Sunday drunk and downs:

The case against R. H. Jones and John Hawkins, charged with an affray, was continued.

Trim Austin took on too much split-skull, which caused him to be disorderly to a beautiful degree. One dollar and costs was the price for the luxury.

Another disorderly case was continued.

Billy informed the reporter that a warrant had been issued for a young "rooster" of black plumage, who will probably have *his* comb cut this morning.

Frank Yarboro, disorderly conduct $5 and costs.

Chowan County Fair.

The first annual county fair of the Chowan County Agricultural and Mechanical Society will be held at Edenton, Chowan county, N. C., Tuesday, Wednesday and Thursday, Oct. 7th, 8th and 9th, 1879.

This Society is composed of the Canaan Farmers' Club and Saint's Chapel Farmer's Club.

A large list of premiums is offered for stock, poultry, farm productions and mechanical work.

The Exhibition Committee will have general supervision of the fair grounds. The judges will commence their examination on Thursday, Oct. 9th, 1879, at 12 o'clock. The premiums will be awarded at 4 o'clock same day.

The book of entry will be open at the Secretary's office, on the fair grounds, on Tuesday, Oct. 7th, at 10 o'clock. All articles for exhibition at the fair must be on on the grounds at or before 12 o'clock, Tuesday, Oct. 7th, 1879.

Merchants of Edenton, Norfolk, Baltimore, and all persons favorable to the cause of home industry, and the improvement of agriculture, are hereby respectfully requested to contribute to the premium list. Any such contributions may be sent to the President.

FRANK STURGIS, Edenton, N. C.

A Sad Sight in Virginia.

Charleston (S. C.) News and Courier.

What can be more melancholy than the spectacle which General Mahone now presents in Virginia. The hero of the Crater, who stood second to none of the Virginia soldiers that survived the war, not even to General Joseph E. Johnston himself, actually stumping the State in favor of repudiation, for it amouts to that.

What it Cost.

Charlotte Observer, 6th.

The cost of trying the Pethel murder case was very heavy. The bill has not yet been made out by the clerk and solicitor. but it is estimated by them at fully $1,500. Having been twice removed from one county to another, first from Rowan to Iredell and thence to Mecklenburg, and held over from one term here, and there being a large number of witnesses, the cost rapidly ran up until now it is a heavy burden to Rowan county, which will have it to pay. Add to the above the attorney's fees and the sum will run to $2,000 or more.

We May Expect to Hear of It.

Louisville Courier-Jounal.

The Republican organs are vigorously hinting that they would give their last nickels to have Stewart L. Woodford shot at or insulted. We have no doubt the Republican leaders have already hired somebody to shoot a paper wad at his corpus for the sake of getting up a blood-curdling campaign story of a "Mississippi assassination." That is a well-known Republican campaign method, so we may expect to hear of Woodford's "narrow escape."

It is asserted that the ordinary cosmetics used by ladies are productive of great mischief. We believe this is so, and that a better means of securing a beautiful complexion is to use some blood medicine like Rosadalis, the great Southern Remedy, which cleanses the blood and gives permanent beauty to the skin.

Why Will You

Allow a cold to advance in your system and thus encourage more serious maladies, such as Pneumonia, Hemorrhages and Lung troubles when an immediate relief can be so readily attained. *Boschee's German Syrup* has gained the largest sale in the world for the cure of Cough, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, ane is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand rnd without a single report of a failure to do its work in any case. Ask your Druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced.

* JOB OSBORN.

BOVINE, MISSISSIPPI, April 22, 1879.—The following correspondence will explain itself: A. WADDILL, ESQ., LYNCHBURG, VA.—Dear Sir: Observing a certificate from you in reference to the "Iron and Alum Mass," of the Seven Springs, in Washington county, Va., in relation to its efficacy for Liver Diseases, would you have the kindness to inform me whether you used the "Mass" or the "Water;" also, a description of the symptoms and such other information as you may deem pertinent. I am a long-time sufferer with Liver Complaint, and naturally feel very anxious on the subject of a remedy that will afford me even temporary relief. Your early reply will greatly oblige, very respectfully,

WILLIAM BARR.

LYNCHBURG, Va., May 12, 1879.—WM. BARR, Esq., Bovine, Mississippi—Dear Sir: Your inquiry in regard to the "Liver case" which was effectually cured in my family from using the "Seven Springs Mass," is before me. The case referred to in my certificate was that of my wife's sister, who is now in her 80th year, and has been a member of my family for the last 27 years. She had been afflicted with Liver Disease for 30 years, sometimes almost dying with pains in the back, breast, and heaviness of the chest, heart-burns (intensely), sick stomach, vomiting, &c. I procured a few bottles of the "Mass" for her, and very soon after she began the use of it, her health commenced to get better, and she continued steadily to improve, and at this writing, so old, seemingly in as good health as a person who had never been afflicted with these diseases. She attributes her cure entirely to the efficacy of the "Seven Springs Mass." I regard it one of the greatest family medicines we have access to, not only for such diseases as above indicated, but for various other complaints to which it is recommended. Hoping these answers satisfactory, I am, very truly, A. WADDILL, Proprietor Lynchburg News.

A Card to the Public.

We ask a careful reading and a thoughtful consideration of what follows. It is now over twelve years since a new cure for chronic diseases was discovered, known as "Compound Oxygen." The results which have followed its use up to this time have been so remarkable that it is beginning to attract the widest attention. Many intelligent physicians in various parts of the country have, after a careful investigation of its scientific and pathological claims, used it in cases where all other known remedies had failed, and with a success alike surprising to themselves and their patients. In Consumption, Catarrh, Asthma, Bronchitis, Headache, Dyspepsia, and the wide range of Neuralgic disorders from which so many suffer life-long tortures, it has rarely failed to give relief, and in many cases to make permanent cures. It is not a drug, but a new combination of the two elements which make up our common air, giving oxygen in excess. It is taken by inhalation, and cures by natural and orderly processes—first, by eliminating the excess of carbon which has accumulated in the system; and secondly, by a revitalization of all the great nervous centers. In order to give the public an opportunity to learn all about this new treatment, we have a prepared a carefully written Treatise, in which is presented a history of the discovery of "Compound Oxygen," a statement of its Scientific Basis and Mode of Action, and large details of the results which have followed the administration. This is sent free by mail to any one who may desire to receive it. Address Drs. Starkey & Palen, 1112 Girard Street, Philadelphia, Pa.

A Card.

Allwho are suffering from the errors and indiscretions of youth. nervous weakness, early decay, loss of manhood, etc., I will send a receipt that will cure you, free of charge.
